Extremely Heavy
 Expensive
Sags and Droops
 Molds and Mildews
Cannot recycle
 Retains Heat
Swells from moisture

Endeck capped cellular PVC vs all others. **It takes a pretty thick skin to stand up to all the punishment delivered to your deck.**

With all the activity intended for your new deck, plus everything Mother Nature will throw at it, you need a deck plank with a tough outer shell. Endeck capped cellular PVC is made to withstand most conditions—environmental and manmade—from the constant punishment of UV rays from the sun, to rain, sleet and snow, to the barrage of kids, neighbors and friends scuffing their shoes, dragging deck furniture, and dropping ketchup, mustard and hamburger grease all over it. Endeck is cooler to the touch, does not splinter, and is slip resistant - wet or dry — making it a safer deck choice for your entire family.

Endeck Employs a Tougher HardCover™ Capstock

- Proprietary formulation
- Years of proven weatherability
- Consistent strength and endurance
- No moisture penetration or delamination
- Stain-resistant finish
- Excellent traction wet or dry
- Fade-resistant

Introducing Endeck Forest™ Series.

Fade and Stain Resistant —
with a deeply embossed wood grain, rich dark
colors - four variegated and one solid option.

With an unmatched ability to resist stains and fading, Endeck Forest Series decking is sure to provide many years of worry-free enjoyment and may very well outlast your home! The deep, rich colors that run through Endeck Forest Series lend a natural beauty that is only found on the most expensive, exotic hardwoods. Our process allows for a consistent rough sewn textured plank with subtle color variations as random as those found in nature.

And, even though the colors run dark, Endeck manufacturing technology allows the decking underfoot to remain comfortable, and cooler to the touch—even on the hottest days.

Distributed by:

Endeck is 100% capped cellular PVC, with no wood fibers or fillers. It won't rot or crack like wood or composites and capped composites.

Endeck Forest Series employs our exclusive HardCover™ Capstock, a higher performance outer surface delivering unmatched durability and ultra-low maintenance.

It takes a pretty, thick skin to stand up to all the things that can happen to a deck. Endeck employs a tougher, proprietary HardCover™ capstock offering consistent strength and endurance, providing excellent traction wet or dry. Endeck is fade-resistant, stain-resistant, scratch-resistant and slip-resistant, and engineered to withstand everyday punishment from nature and your neighbors. Rest assured Endeck is also safe for children and pets remaining cooler to the touch and splinter-free, year after year.

Tough inside and even tougher outside.

Endeck boards are strong, durable, engineered to resist sagging, and lighter in weight than composite, capped composite or treated wood deck boards. Endeck boards meet or exceed stringent AC10 and AC174 standards.

Enrail® Vinyl Railing Systems.

Decking and Railing that go hand-in-hand.

Enrail is an easy-care railing system that has great architectural appeal for today's homes.

The Enrail vinyl railing system is engineered for a higher standard of living, so you can trust your rail for a lifetime of performance and good looks. Enrail is more than just durable, sturdy and safe. You receive the perfect complement to your home's architectural style with ultimate flexibility of design options. Enrail vinyl railing also meets or exceeds stringent AC10 and AC174 standards, and is CCRR-0107 code approved. Available in three handrail styles (at right).

Series 100
2" x 3.5" railing is contemporary and straightforward

Series 200
Add real architectural appeal with the strong lines of the T-Rail system

Series 300
Soft curves of the Small Contour Rail work to conceal the amazing strength inside

Unlike wood, Endeck Forest Series decking comes with a limited Lifetime Warranty.

30 Year
Fade & Stain
Warranty

Enduris warrants its Endeck Decking and Enrail Railing products, subject to the terms, conditions and limitations (see individual warranty details at www.enduris.com), to be free from defects in material and workmanship. When installed under normal conditions and proper use, Endeck and Enrail will not peel, pit, rot, blister, crack, abnormally weather or be consumed by insects.
