

Case Study

Endwood® High Performance Capped Cellular PVC Fencing

Oakwood Homes • Carriage Home Development • Denver • Colorado

Situational Analysis:

Oakwood Homes was seeking a quality, natural looking fence which would require little to no maintenance and retain a long-lasting and beautiful presentation for the neighborhood. They chose Endwood for its wood characteristics and unmatched warranty - finding it to be the best alternative to all of the composite products on the market today.

"Our recent development required a durable fence product which would complement the community and allow for customization. After considering composite and wood options, we were pleased to have found Endwood fencing which offered an attractive wood appearance while also providing a long lasting, maintenance free fence product."

~ John Cheney, Manager – Development & Acquisitions, Oakwood Homes

"...Endwood is good looking and very durable product from a well-established company. It has a natural wood look and feel....Finally, a fence manufacturer has produced a product that looks and feels like wood and will not only stand the test of time, but will also be available in the future."

~ Rodney Kellogg – Custom Fence and Supply, Inc.

Ultra-Low Maintenance • Lighter Weight • 30 Year Fade and Stain Warranty • No Wood Fillers

If this is
your fence,
it's also your
reputation.
